

The health, safety and peace of mind for patients, families and employees is our highest priority at St. Barnabas.

As of today, 10/16/2020, there are no new clusters of residents or employees. We have not had a new positive case of COVID-19 amongst residents or employees since 7/13/2020.

We conducted our next round of mandatory surveillance testing of our staff members earlier this week. We are happy to report, yet again, that we had no employees test positive.

Our staffing is more than ample and our employee morale remains strong as they are dedicated to the care of our residents.

We continue to monitor COVID-19 updates and follow recommendations and guidelines from the Center for Disease Control and Prevention (CDC), Center for Medicare & Medicaid Services (CMS), the Pennsylvania Department of Health, and the Governor of Pennsylvania.

We are still reporting to the PA Department of Health and the CDC.

Please note that this is still a fluid situation and has the possibility of changing. You will be made aware of changes as they occur.

As always, if you want your loved one transferred to the hospital, another facility, or to their or your home, we can help you make any necessary arrangements.

Thank you for your patience and cooperation during this unprecedented time of the COVID-19 pandemic.

Should you have any additional questions, or if you would like to speak with a representative from St. Barnabas Nursing Home, please call 724-443-0700 and request Aaron Salyards, Administrator, or Jennifer Starr, Director of Nursing.
